

**PRESS RELEASE**

**Sunrise Systems to build Disaster/Recovery system for Shared Services eRecording Portal**

**Metuchen, NJ (September, 2006)** – Sunrise Systems, Inc. a leading edge IT consulting and software development services provider is engaged by County of Monmouth to develop a Disaster/Recovery system for the award winning electronic recording (eRecording) Portal in use by eleven (11) counties in the State of New Jersey.

The eRecording Portal was developed by Sunrise Systems and initially launched by Monmouth County Clerk office as a shared services offering in October, 2003. Since then its use has expanded to include ten (10) additional counties, which translates to more than 50% of the counties in the State of New Jersey.

“This is a historic event for counties in the State of New Jersey, and a great demonstration of counties working together on long term preservation of public records while ensuring Continuity of Operation (COO) and Continuity of Government (COG)” said Noorali Sonawalla, president of Sunrise Systems, Inc.

Sunrise Systems is the developer of the eRecording Portal and continues to work with multiple counties in the implementation, maintenance, and support of the system.

**About Sunrise Systems, Inc.**
