

Managing and updating thousands of records for regulatory compliance across local and state levels – instantaneously

Records Retention and Disposition Management System, or Artemis, built by Sunrise Systems, enables State and Local agencies to integrate their respective records management and records disposition workflow through a standardized system. Records Retention and Disposition Management System, or Artemis works off a centrally-hosted Shared Services portal to simplify records management for State/ County and Local government agencies. The system easy access and publishing of archives and records in a transparent manner.

Who can use Artemis

If you are a regional or local government agency, you can

- Obtain complete, accurate retention schedule
- Disposition Request Management
- Electronic Approval of Dispositions

Capabilities and Features

Records Retention Management

- Author, edit, and publish record retention policies
- Manage record series and schedules for individual state/local agencies
- Establish retention policy in months, years or event based
- Reference specific legislation and/or statute
- Ensure consistent adoption across all state and local agencies

Disposition Request Management

- Supports complete workflow for the creation and submission of electronic disposition requests with optional electronic signature
- Online review and approval by the agency and/or state archives staff
- Permanent storage of approved/rejected requests in central repository
